REMARKS

Applicants request entry of this amendment in adherence with 37 C.F.R. §§1.821 to 1.825. The amendment submitted on August 14, 2003 was accompanied by a floppy disk and a paper copy of the sequence listing. The paper copy omitted the "feature" for SEQ ID NO:1 noted by the Examiner, although it was present on the computer readable form.

This amendment provides a substitute paper copy of the Sequence Listing that has been printed from the accompanying floppy disk, both of which contain the correction requested by the Examiner.

The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy. This amendment contains no new matter.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
